"In Section 3d it is enacted that no mail matter shall be delivered by the Post Master until the postage due thereon shall have been paid; and no box at any Post Office shall be assigned to the use of any person until the rent therefor has been paid for at least one quarter, &c." Instruction No. 3 says this section

"absolutely prohibits the delivery of any letter, newspaper, pamphlet or package, whatever, until the postage thereon shall be paid." "Post Masters must strictly conform to it."

We are requested to state, in this connection, that no mail matter will be deposited in any box at the Nashville Post Office on Wednesday next, the first of July, unless the box rent is paid. All the paid box rents expire on Tuesday, the 30th. Remember, owners of boxes, that this is a matter over which the Post Master has no control, and it is one in which he can exercise no discretion.

Sec. 22d fixes the rate of postage, and is as follows: "On all domestic letters transmitted in the mails of the United States, and not exceeding one-half ounce in weight, shall be uniform at three cents; and for each half ounce or fraction thereof, of additional weight, there shall be charged an additional rate of three cents, to be in all cases prepaid by postage stamps plainly affixed to such lat-

Instructions No. 22d prescribes that "on and after the 1st of July, 1863, the single letter rate of postage will be three cents throughout the United States. The Pacific rate of ten cents is abolished." An additional rate of three cents is required for each additional half ounce or feaction. It must be prepaid in all cases, subject to the exceptions mention-ed in section 27."

Drop letters are regulated by Sec. 23d as follows: "The rate of postage on all letters not transmitted through the mails of the United States, but delivered thro' the post office or its carriers, commonly described as local or drop letters, and not exceeding one-half ounce in weight, shall be uniform at two cents, and an additional rate for each half ounce, or fraction thereof, of additional weight, to be in all cases prepaid by postage stamps affixed to the envelope of such letter; but no extra postage or carriers' fee shall hereafter be charged or collected upon letters delivered by carriers, nor upon letters collected by them for mailing or for delivery."

Instructions No. 23 prescribes "that on and after July 1st, 1863, mail letters are collected and delivered without any charge. All local letters, however, are chargeable with two cents postage, to be prepaid by stamps in all cases." Section 16 of the law limits the weight

Instruction No. 17 directs that on and after the 1st of July, 1863, postage must be pre-paid upon all mail matter except let. Matter lawfully franked.

by special convention.

3d. Printed matter regularly issued and sent to regular subscribers. 4th. The letters mentioned in section 27 of this law.

2d. Foreign letters which are regulated

Instructions No. 27 directs as follows: 1st. Letters written by commissioned officers in the military or naval service cannot be certified as soldiers' or naval letters.

2d. Letters written by non-commissioned officers and privates in the military service, or in the naval service, (embracing the marine corps), on which the postage is not pre-paid by stamps, must be plainly marked on the outside, over the address, soldier's letter or naval letter, (as the case may be), and this certiflicate signed with his official designation tion by a field or staff officer of the regiment to which the soldier belongs, or by the officer in command of his detachment, or of the post, or by a surgeon or chaplain at a hospital. In the navy or marine corps by the officer in command of the vesel, or by a chaplain or surgeon on board, or by the officer commanding a detachment of marines on shore.

3d. It any military or naval letters not thus duly certified shall be deposited at any postoffice for mailing, they shall nevertheless be mailed, but rated up with double postage, to be collected on delivery, as in other cases of unpaid letters.

Especial attention is called to the Law and Instruction in relation to the Franking Privilege. All officers of the Army of the Cumberland would do well to give it their particular attention. Unless they exercise great care they will subject themselves to the mortification of taxing their official correspondents with double postage, and perhaps of having their communications refused or not attended to. Care should be taken to have their letters paid in full, as any unpaid porion is charged with double postage.

The law in relation to the franking

privilege is as follows: "Sec. No. 42. Authority to frank mail matter is conferred upon and limited to the following persons: First. The President of the United States, by himself or his private secretary. Second, The Vice-President of the United States. Third. The chiefs of the several executive departments. Fourth. Such principal officers, being heads of bureaus or chief clerks of each executive department, to be used only for efficial communications, as the Post Master General shall by regulation prescribe. Fifth. Senators and representatives in the Congress of the United States, including delegates from Territories, the Secretary of the Senate and Clerk of the House of Representatives, to cover correspondence to and from them, and all printed matter issued by authority of Congress, and all speeches, proceedings, and debates in Congress, and all printed matter sent to them; their franking privilege to commence with the term for which they are elected, and to expire on the first Monday of December following such term of office. Sixth. All official communications addressed to either of the executive departments of government by an officer responsible to that depart ment : Provided, That in all such cases the envelope shall be marked "official," with the signature thereto of the officer writing the communication. Seventh, Post Masters have also the franking privilege for their official communications to other Post Masters: Provided, That in all such cases the envelope shall be marked "official," with the signature of the writer thereto; and for any and every such indersement of "official" falsely made, the person making the same shall

Amo 72 galaxies Species and Parties of

forfeit saft pay three hundred dollsre. Eighth. Petitions to either branch of Congress shall pass free in the mails. Ninth. All communications addressed to any of the franking officers above described, and not excepted in the foregoing classes, must be pre-paid by postage stamps. The franking privilege herein-before granted shall be limited to packages, weighing not exceeding four ounces except petitions to Congress and congressional or executive documents, and such publications or books as have or may be published, procured, or purchased by order of either house of Congress, or joint resolution of the two houses, which shall be considered as public documents, and entitled to be franked as such; and except also seeds, cuttings, roots, and scions, the weight of the packages of which may be fixed by regulation of the Post Master General.

Instruction No. 42. First. Communications may be franked by the President, (by himself or Secretary,) by the Vice President, and by each member of the Cabinet, without being certified to be "official."

Second. The fourth class of franks can only cover official correspondence, and the words "official business" must be upon the envelope and signed by the official franking. For such official correspondence the franking privilege is allowed to the following officers: The First and Second Comptrollers of the Treasury; the Solicitor of the Treasury; the Auditors of the Treasury ; the Treasury of the United States; the Register of the Treasury ; the Assistant Secretary of State; the Assistant Secretary of the Treasury ; the Assistant Secretary of the War Department; the Assistant Secretary of the Navy; the Commissioner of the General Land Office; the Commissioner of Customs; the Commissioner of Patents; the Commissioner of Indian Affairs; the Commissioner of Pensions; the Assistant Postmaster General; the Adjutant General of the Army; the Quartermaster General; the Inspector General; the Commissary General of Subsistence, the Paymaster General; the Chief Engineer; the Surgeon General; the Colonel of Ordnance; the chiefs of bureaus of the Navy Department; and the Superintendent and Assistant Superintendent of the Coast Survey; the Superintendent of the Census; the Commissioner of Agriculture; the Commissioner and Deputy Commissioner of the Internal Revenue; the Provost Marshal General; the chief clerks of the Executive Department; Senators and Representatives in the Congress of the United States; delegates from Territories; the Secretary of the Senate, and Clerk of the

House of Representatives.

Third. Attention is specially directed to the sixth clause of this section, which changes the former law. All core spondence addressed to any executive department, or any officer in it, must now be pre-paid, except official communications written by some officer of the department, or an officer under its control or responsible to it; and in such cases, under the words "official business" on the envelope, the officer must sign his name with his official designation. All other persons, and all officers writing to of packages to be sent by mail to four departments with which they are not connected, must pre-pay their postage. All communications to the President not written by a public efficer, and all to the Vice President, must be pre-paid.

Fourth. The seventh clause of this section prohibits all franking by postmasters, or to them, except upon their official communications to the department, and to each other. In such cases the envelope should bear the certificate official business" signed by the postmaster writing.

Postmasters can no longer receive printed matter free. Fifth. The weight of packages of seeds, cuttings, roo's, and scions, to be franked, is limited to twelve ounces.
